The “Secure” Advantage

With more than 39 years of combined experience, **Secure Foundation Systems, Inc.** offers innovative foundation stabilization and sinkhole solutions throughout Florida.

As a State Certified General Contractor, **Secure Foundation Systems, Inc.** focuses on providing customers with unparalleled service, innovative technology and a truly professional experience.

Unparalleled Service

As a customer oriented business, educating and reassuring clients is just as important as repairing their foundation. We build a relationship with our clients in order to walk them through the entire remediation process.

With Florida’s diverse geological environment, adaptation is a critical function of any deep foundation service. At **Secure Foundation Systems, Inc.** we work extensively with engineers to safely and effectively stabilize properties based on each site’s specific needs.

Innovative Technology

Our state-of-the-art equipment has been specifically designed to exceed the industry’s standards as well as to optimize efficiency and accuracy. Exclusively designed by TMG Manufacturing, Corp., a Tampa based company with extensive industry knowledge, our equipment allows us to provide customers with the latest, most reliable technology at a competitive price.

Professional Experience

At **Secure Foundation Systems, Inc.** we offer more than just foundation remediation services. While always working to achieve the engineer’s specifications, we never forget the client’s need for “security,” both in our workmanship and in the elimination of their problem.

All **Secure Foundation Systems, Inc.** employees are highly-skilled, detail-oriented professionals who undergo constant training. Key decision makers monitor projects daily. Take comfort in knowing your property is in the hands of a dynamic organization.
